Respected friends and well wishers,

It is a moment of profound happiness for me to share and publish our annual activity report for the 8th year 2020-21. The Green Globe continued its journey towards achieving its objectives without much of institutional support from development agencies. The organization over 10 years have understood importance of effective and streamlined documentation procedures and necessary compliance issues needed for its own growth and development of community as a whole.

Over past 8th years organizations effort has been to promote environmental degradation based on air, water, soil and wildlife. Organization has been observing different day and divas especially related to environment. Working towards less single use plastic free life style. Provide livelihood in organic manner, A part from providing trainings organization has been active in providing market linkages to sell their products in national and state level exhibitions and fairs.

Organization has been active in promoting health and hygiene activities, women right and child welfare program etc. under district of Nalbari, Kamrup (R), Baksa, Barpeta district considering its remoteness and poor health infrastructure. The Green Globe has been instrumental in providing medical counseling to villagers through medical and environmental awareness generation camp. Effort of organization would be to raise its capacity and garner institutional support conducting health services projects and save nature in Nalbari district with special thrust on women and child health.

Hope, we achieve our objective earnestly and take our journey forward with active support from all our well-wisher and community at large.

With thanks

(Mr. Rajesh Dutta Baruah)

ORGANIZATION AS A WHOLE:

About The Organization: The organization, The Green Globe is a non-political, non-religious, nonprofit making organization working for the conservation of Nature, socio-economic development of rural poor especially those who are falling under SC/ST/OBC/Women and Child/physically handicaps etc. The thrust area of the organization has been working for scientific management of production procedure by using local recourses. The management of the organization is headed by executive members and general body.

It was in 2013-14. When “The Green Globe” was established with a view conservation of Nature and create livelihood project with the help of needy and poor people of this trouble torn district of Nalbari in the long period of eighties like the most of the other places Assam and North East the young and youth generation of Nalbari District was effected and govt. diverted towards and rich in flora fauna, cultural and educational heritage since long soon turned out to be place of horror and insurgency prove during early nineties. The employment problem has aggravated the situation in a big way.

It was with that view, the “The Green Globe” guide educated unemployment youth numbers of schemes offered by the govt. and other organization.

After three years of its establishment, “The Green Globe” has come up with distinction as one of the pioneering NGOs of this part of the state particularly in the field of Conservation of Nature, Entrepreneurship and Agricultural based small scale industries. In revolution in this thickly populated district in a wider sense. This is particularly at a crucial time when a big number of educated unemployed youths were diverted towards and infected culture of running behind those easy paths for earning money rather than engaging themselves in hard work. A section of those youths got so frustrated that they have taken the ultimate path or arms. It is with that aim; The Green Globe was established to bring back the diverted youths towards the mainstream and give them the idea of the fact that there can't be a short cut to success you have to work only any way out.

The “The Green Globe” has formulated a list of activities to be included in its curriculum to help the needy, poor and particularly the educated unemployed youths' step by step and to show them that it's a futile to run after job or employment. The

STATE may not be in a position to absorb each and every person, it is on the part of the persons to create the jobs by themselves and to work in it for their own earnings. This is in similar to the American conception of democracy where the STATE is not bound to offer jobs to all citizens, or in other way, it was be taken in parallel to the thinning of the philosophy that, you be the owner rather than being the slave.

It its four years of existence The Green Globe has mobilized not less than one thousand youths, particularly from the rural areas, in different groups with a number of agriculturally based schemes offered mainly by ASTEC, Government of Assam. It is great relief and pleasure to record that the venture started by The Green Globe has been able to touch the polluted youth mentally to divert it towards a healthy atmosphere full of dignity and work culture program for rural women, composite firming where we have applying fishing culture covering 40 bigha of land, organic mushroom cultivation, vermicompost involving many unemployed youths for earning their livelihood.

Operational Strategy:

In order to achieve the mission and vision of the organization through its activities the organization has its own self-generated program and has following operational strategy. Through common consensus and people's participation.

Coordinating with government and other social voluntary organization for organized delivery of its services in the grass roots.

Equal participation of women in all its activities.

Effective making of local resources available with the organization.

Developing and building capacity of own human resources.

By haring proper follow up and monitoring of all the activities if field.

Thrust Area of the Organization

The organization moves only one agenda which is rural development by putting the rural economy fast track through gainful generation of employment for all section (educated/semi educated/uneducated/women/SC/ST/OBC and under privileged) of the rural areas.

Basic Infrastructure:

The society has its office complex.

The society has classroom facilities for conducting various training program.

The society has 2 No. of computer sets for official use.

The society has one projector for better and fruitful programmes.

The society has in house expert Faculties to conduct skill Development Training in different trade.

The society has one pond for promotion of fishery and agricultural activities.

The society has one Handicrafts production unit.

The society has Mushroom unit.

The society has vermicompost unit.

The Green Globe carried out the following activities for year-2020-21

1. Observation of World Environment Day: On occasion of the World Environment Day-2020, The Green Globe organized an art competition at Ratanpur Chaygaon, dist. Kamrup (R) with the involve of various age group students on 05/06/2020 the topic was Natural Scenery. Around 30 nos. of children of various schools were participated in the competition. Then, there were some saplings were planted by the students.

2. Transplantation: Transplantation is beyond Plantation. We the Green Globe have done 28 nos big tree translocate from one place to another place in the beside National Highway NO31, Borkura chowk, Nalbari. Often in the name of development we cutting down lots of big trees. But, for the first time in Assam history we have translocate some big trees with the help of Earthmover (JCB), which is the alternative of cutting the trees. There are 22 Nos translocate trees are blooming now days The programme was guided by Proff. Kumud Ch. Rabha Nalbari college.

3. Observation of International Mother Earth Day: The 2020 theme Climate Action is very sensitive subject for all the planetarian. The Green Globe organized a day long plantation and nurturing programme on the occasion of Mother Earth Day. Also ride a bicycle rally to make conscious people Carbon footprint which a major role in changing the climate.

4. Mushroom Unit: Mushroom could be an alternative food for future. It is rich in protein, minerals, fiber, ergosterol etc. the process of cultivation of mushroom is very low cost effective and good for landless people too. From the 2016 we have run a mushroom unit with the help of Kendukuchi Mushroom Krishak Gosthi (KMKG) in Nalbari. From the unit 10 unemployed youth are benefitted and more than thousand people get a good food.

5. Swachata Action Plan: Since inception of The Green Globe promotion of health & hygiene amongst its targeted segments has been one of primary objectives of the organization. The Green Globe volunteers have been providing active support to organize cleanliness drives in villages falling under the various Gaon Panchayat, schools, public places etc. with help of its volunteers and schools students also arranged awareness generation programme about pure water and sanitation in villages of Barkhala, Amanl, Chengnoi, Mairadanga of Nalbari district. Under the financial support of Ministry of Environment Forest and Climate Change via Assam Science Technology and Environment Council there three activities conducted. Accordingly Amani Janakalyan HS, Rajkadamtal Ballka Bldyalaya and Pachim Borlgog Dhiridutta HSS. Where we organised Bicycle rally, waste transformation to decoration, hoardings, cleanliness drive, awareness meetings via projector. Along with drive, organization also arranged one awareness generation meeting to promote concept of pure water and sanitation amongst villagers. The

villagers were given knowledge on importance of solid waste management in a rural economy and child & women health related issues.

The main objectives of the awareness programme are Key Communication Objective: key objectives that need to be addressed have been identified i) Sensitive common people on the ill effects and environmental threats of poor waste management, ii) Create a conducive mood and environment for adoption and acceptance of waste management solutions, iii) Create awareness on the 4 R principle (**refuse, reduce, reuse, recycle**), iv) Create awareness segregation at source (household, commercial, public establishments, institutional) for better management of waste at source and in ward level or centralize plants, v) Reduction of antagonistic attitude towards waste treatment plants convincing people that common waste treatment facility is a necessity, which when executed properly in a professional way with people participation can never be a nuisance, vi) Popularize the need for safe toilets (with proper leach pits/septic tanks) and educate on health hazards due to non-usage of safe toilets.

6. Observation of World Water Day: Water is the most important creature of the planet. In the above connection The Green Globe organized an awareness generation programme on 22-03-2021 at Bhojkuchi MV School in collaboration with Eco club, Bhojkuchi under National Green Corps. In the meeting Mrs. Sweety Talukdar IEC coordinator PHED, Nalbari attend as a resource person. There was a bicycle rally in the village of Bhojkuchi and Makhibaha then a cleanliness drive conducted at river bank of Burahdia. On other hand The Green Globe has taken a posturing campaigning about water conservation in various place of Kamrup, Baksa, Barpeta, Nalbari district.

7. Maintenance of Nursery: 20th to 27th January/2021 the organization was conducted training on nursery & garden at organizational campus. The main component of the program was to make them training cum awareness generation on environment education, nursery raising and seedling, cutting with the help of school student, teachers, and general public.

8. Plantation: A massive Plantation Programme was organized by the Green Globe 17th September, 2021 on beside the No-31 National Highway.

9. Celebration of World Wetland Day: The Green Globe organized an awareness programme on occasion of World Wetland Day with the theme **Wetlands and Water** at Pub- Namati Vidya Mandir High School, Mairadnga, after the programme there were a bicycle rally by the students to make people aware about importance of wetlands. Then a cleanliness drive conducted at Pagladia river.

10. International Biological Diversity Day: For the purpose of practical knowledge, we organized a program at the Balilesha Jungle. Our aim is student must realize the practical knowledge about Jungle and Biodiversity. There are 60 students from various schools were participate the program. The resource person was Dr Simi Talukdar.

11. Drug Abuse Programme: An awareness generation programme on Prevention of Alcoholism and Substance (DRUGS) Abuse organized by the Green Globe on 21st August/2020 at Nalbari College, under sponsored ship of Directorate of Social Welfare, Govt. Assam. Accordingly, the Green Globe organized the programme amongst the school/college students, local opinion leaders and public in general. The resource person was Mr. Tilak Das.

The inputs of the programme were as below:

- a) Prevention of Alcoholism and Substance (DRUGS) Abuse.
- b) Counseling of 5 Nos. of Drugs addicted person.
- c) Anti- Incumbency activities against Drug's abuse.

At last the programme was sum-up and committed everybody for prevention of Alcoholism and substance (DRUGS) abuse.

12. Yoga Training Camp: Yoga is a system of holistic living, having the roots in Indian tradition and culture. The awareness about Yogic practices is increasing among people from different walks of life, not only for preservation and promotion of health, but also for the management of various diseases. It is felt that the Yoga facility should be made available to more and more people adhering to the classical knowledge, so that people trained in Yoga can derive maximum benefits. Also, as popularity of Yoga is growing, the demand for Yoga training is increasing at all levels.

Keeping this view the Green Globe conducted lots of training programme on yoga in the area of Pub-Nalbari Development Block of Nalbari District to instill better habits for positive health outcomes for the citizens of Assam.

13. River Bank Cleaning Programme: Rivers are the source of fresh water it is also lifeline for many people who is directly connected with the river and also aquatic species. For the protecting of rivers, we often conduct various cleanliness programme along with aware people about destroying its pride. In connection of the programme some additional inputs were given like posturing of banner, hording, dumping zone, provide dustbin and distribution of pamphlet etc.

14. Waste to Wealth: From waste material we have make some beautiful decorative items with the help of Eco club students, youths and public. We have made vertical garden collecting single use plastic bottle from road, drain, river. Strongly we are motivating students to refuse, reuse, recycle the single use plastic, but it is also true that we can't avoid the single use plastic 100%. Because the milk packet, detergent powder etc. all are packet in polythene. So, from those single use we could make eco brick or bottle brick. Which is could be use as alternate of brick which looks also beautiful. We have done some programme at Pashim banbhag Higher secondary Schools, Uttar Pub Khata ME School, MNC Balika Bidyalaya Nalbari.

15. Awareness Programme on Pure Water and Sanitation: Contaminated water and poor sanitation are linked of disease such as cholera, diarrhea, hepatitis A typhoid, polio. Pure water is the 2nd most important elements for living. Every looking crystal-clear water may not for drinking, there could be arsenic and fluoride also. We are aware people about the pure water and sanitation which is interlinked. We have conducted the programme many villages like Mukalmua, Bhojkuchi, Haribhanga, Barjar, Dipta, Sandha, Sariahtoli, Balikoria etc.

16. Awareness Programme on Carbon Footprint: Each step we emit Carbon Dioxide directly or indirectly is called Carbon Footprint. Scientists have found a direct relationship between carbon emission and global warming. Carbon emissions are the primary greenhouse gas emitted into the atmosphere by human activities. So, if the CO₂ level will increase than the level of warming also high in our planet. That is why, from the establishment of Green Globe we are working in the very sensitive issue. There were Tihu Girls, P.B. Dhirdutta Higher Secondary Schools, P.B Ambapriya Girls High school, Nalbari.

17. Awareness Programme on Importance of Wildlife: Wildlife plays an important role in balancing the environment. Wild life provides a stability to different natural processes of nature. The importance of wildlife can be categorized as ecological importance, economic importance, investigatory importance, conservation of biological diversities etc. So, our organization are working towards conservation of Wildlife.

18. **Snake Rescue:** All species are in a complex food web and help to maintain a population balance. Without snakes, the number of prey species would increase to unnatural levels and destroy the stability of the ecosystem. Similarly, if a large number of snakes are killed, the predators that eat snakes will struggle to find food. Unfortunately, or may unknowingly a large number of people be scared from snake and killed every day as a self-defense. To protect the beautiful creature if someone calls us than we rescue snake with safety measures and release it to the jungle without. harm man and snakes. **In the year of 2020-21 we 27 non venomous snake and 7 venomous snake rescued by our team.**

19. **Vermicompost Unit:** Vermicompost has the following advantages over chemical fertilizer. It restores microbial population which includes 14 types of elements which is very important for any plants. With the conservation of nature and promote organic method we are **engaging unemployed towards organic cultivation in collaboration with NBB group.** From this unit there are 7 numbers of youth are engaging.

20. **Eco Friendly Holi (color) Preparation:** This year we had prepared some Eco friendly and Health friendly gulal from natural resources. There will be organize a workshop and awareness generation programme about How to Prepare the Natural Color Powder (*faku*) from Natural Products and an Awareness meet about the effect of the artificial colors hazard to our Health and Environment. The programmes main target involvement of students, women and public in general. Where resource person trained **how can make natural color (*faku*) from the turmeric, beetroot, spinach, beson, vine spinach etc. with mixing of arrowroot powder, maida etc.** the awareness program was at Nalanda public school and around 40 students from various schools attend the programme.

21. **Video Documentary:** There were a video documentary on Eco club activities of Nalbari district produced by Green Globe with the financial grant for Assam Science Technology and Environment Council. The 10 minutes long video was directed by Mr. Dipak Dutta of Mahapurush Visual Production, Guwahati.

The organization has been caring out a status in implementation of various social development activities during the year 2020-21. It has perspective to follow up for social development, which may be developing and help and guidance of well wishers and on the public support. In this ground the organization offers its gratitude to various social units, Government Departments and other agencies offering their moral help and support during the year ended.

Creating awareness for various income generation activities in rural areas is a regular program of the society. House to house approach for self-employment has been done in good member of villages.

In this period The Green Globe solved financial problem and deficit by collection, contribution, membership fees from the members and well-wishers of the society. Finally thank again for giving us co-operation and The Green Globe expect in future from every member.

We The Green Globe Is working as a District Nodal Agency of National Green Corps' Eco Club program under Ministry of Environment Forest and Climate Change (GOI) from 2016-17.
